Master of Commerce	RTM Nagpur University, Nagpur, Maharashtra	Jul 2022 – May 2023	62.93%
Bachelor of Commerce	RTM Nagpur University, Nagpur, Maharashtra	Jul 2018 – Jun 2021	73.39%
H.S.C	G.S College of Commerce, Wardha, Maharashtra	Feb 2018	82.92%
S.S.C	New English High School, Wardha, Maharashtra	Mar 2016	67.20%

TECHNICAL SKILLS:

Programming Languages: Python (Pandas, NumPy, Matplotlib, Seaborn)
Database & Query Languages: MySQL, SQL (Joins, Subqueries)
Data Visualization Tools: Microsoft Power BI (DAX, Power Query, Interactive Dashboards)
Spreadsheet & Reporting: Microsoft Excel (LOOKUPS, Pivot Tables, Charts, Power Query)
Data Skills: Data Cleaning, Data Wrangling, EDA, ETL, Statistical Analysis, KPI Reporting, Data Modelling
Tools & Platforms: Google Colab, GitHub
Soft Skills: Analytical Thinking, Problem Solving, Attention to Detail, Communication, Stakeholder Reporting

WORK EXPERIENCE

Trainee Data Analyst Dream with Data	July 2025 – Present Wardha, Maharashtra
- Collected, cleaned, and pre-processed large datasets using Python (Pandas) and MySQL, ensuring 95%+ data accuracy for downstream analysis. - Performed Exploratory Data Analysis (EDA) to uncover trends, patterns, and anomalies, delivering insights that improved business decision-making by 20%. - Designed and developed interactive Power BI dashboards and reports tracking key performance indicators (KPIs) for business stakeholders. - Wrote optimized SQL queries using Joins and CTEs, cutting data retrieval time by 25% for ad-hoc analysis. - Created automated Excel reports using Pivot Tables, VLOOKUP, and Macros, reducing manual reporting time by 30%. - Performed EDA on business datasets to identify trends and anomalies, contributing to a 20% improvement in reporting insights. - Prepared monthly and quarterly performance reports for 3+ business teams using data from multiple sources. - Maintained and validated datasets from 4+ sources, reducing data inconsistencies and improving reporting reliability.	

- Worked as a Quality Check Analyst in the Procure-to-Pay (P2P) process, reviewing 120+ invoices daily to ensure accuracy and compliance.
- Validated vendor details and identified discrepancies, maintaining an accuracy rate of over 99%. Performed quality checks on invoices and procurement transactions to ensure accuracy and compliance.
- Validated invoice data, and payment processes to minimize errors. Maintained high accuracy levels while processing large volumes of transactional data. Prepared reports using Excel to track errors, trends, and process improvements.

PROJECTS

HR Employees Attrition Analysis

- Analysed HR employee data to identify the major factors responsible for employee attrition and turnover within the organization.
- Collected, cleaned, and transformed employee datasets using Microsoft Excel for accurate analysis and reporting.
- Developed interactive dashboards to visualize attrition trends based on department, age group, salary, job role, overtime, and work experience.
- Calculated key HR metrics such as attrition rate, employee count, active employees, and average income.
- Identified high-risk employee groups and generated actionable insights to support employee retention strategies and HR decision-making. Improved analytical and data visualization skills through real-time business problem analysis.

E-Commerce Sales & Customer Analysis

- Analysed 50,000+ transactional records of an e-commerce platform to evaluate sales performance, customer behaviour, and product trends.
- Used Python (Pandas, Matplotlib, Seaborn) to conduct EDA, visualizing monthly revenue trends, top-selling categories, and customer segmentation.
- Designed SQL queries in MySQL to calculate customer lifetime value (CLV), churn rate, repeat purchase rate, and revenue by product category.
- Built an end-to-end Power BI dashboard tracking sales KPIs including revenue, order volume, customer acquisition, and retention rates.
- Created Excel-based summary reports with Pivot Tables and dynamic charts for non-technical stakeholders, improving data accessibility.

KEY ACHIEVEMENTS

- Improved data accuracy by 95%+ through data cleaning, validation, and quality checks.
- Maintained 99%+ accuracy while reviewing and validating 150+ invoices daily at TCS.
- Prepared reports and dashboards for 3+ business teams, supporting performance tracking and decision-making.
- Awarded Star Performer of the Month of outstanding contribution and dedication to the organization.

CERTIFICATIONS & TRAINING

- Trainee Data Analyst Certificate – Dream with Data (July 2025)
- Microsoft Power BI Data Analyst – [Coursera] (Jan 2026)
